# Study Europe right there, where it's being built!

Granada

Leipzig

Graz

Vilnius

Twenty years ago, Lithuania joined the EU. Since then, it has learnt to punch way above its weight: from the 2013 Eastern Partnership Summit to the 2023 NATO Summit, Vilnius has been home to truly historical events, and Lithuania has become a laboratory of EU enlargement, Europeanisation and globalisation.

You can now learn about these and many more experiences from around Europe by choosing Vilnius University's Institute of International Relations and Political Science (IIRPS VU) as your base to get an ARQUS Joint Master's Degree in European Studies.

The ARQUS Joint Master's in European Studies, a two-year ARQUS Alliance of Universities programme, is organized by Vilnius University (Lithuania), the University of Granada (Spain), the University of Graz (Austria), and Leipzig University (Germany).

Choosing IIRPS VU as your base to get your ARQUS Joint Master's Degree will give you:

- First-hand insight on the latest ideas and trends in European integration, and a front-row seat on how Europeanisation transforms societies.
- Interdisciplinary studies that will help you understand and critically analyse the complex processes of European integration, Europeanisation and globalisation.
- Physical and virtual mobility, with the possibility to study at IIRPS VU and other prestigious European partner universities.
- The chance to immerse yourself in a multicultural environment and experience Europe from the perspective of lecturers and students in four European universities.

**Choose the European Studies Master's programme at the ARQUS Alliance of Universities, study at IIRPS VU, right there where Europe is being built!**
